PROFESSIONAL SUMMARY

Finance and business analytics professional with 10+ years of experience in financial planning, budgeting, forecasting, KPI reporting, and SAP ERP implementation. Experienced in financial analysis, business process improvement, and cross-functional project management. Currently pursuing an MS in Business Analytics, with technical skills in SQL, Python, Excel, and data visualization.

PROFESSIONAL EXPERIENCE

Cosmopolitan Industries Pvt. Ltd., Epic Group | March 2019 – December 2024
Assistant General Manager – Financial Planning Analyst

- Prepared biweekly cash flow forecasts to support financial planning and fund management for approximately $1.5 million in monthly operating expenses.
- Developed annual business plans, monthly forecasts, and management performance reports to support financial planning and business decision-making.
- Identified and reported key financial and operational KPIs to support management decision-making.
- Ensured compliance with company policies for factory purchases, excluding raw materials.
- Monitored finished goods movement to ensure warehouse operations aligned with standard operating procedures (SOPs).
- Tracked and reported fixed assets from purchase through installation.
- Streamlined SAP Controlling reconciliation, saving 40 hours of manual work monthly.
- Analyzed salary-employee benefit costs to support budgeting and management decision-making.

Deshbandhu Group Limited | July 2017 – February 2019
Manager Accounts, Project Manager – SAP S/4HANA

- Led the SAP Core Team and end-user team, overseeing implementation progress and user adoption.
- Developed project timelines, defined key milestones, and established budgets for the SAP S/4HANA implementation.
- Served as the primary liaison between executive leadership, the IT team, and operational business units throughout the implementation.
- Mapped business requirements, process flows, and system gaps under the supervision of the Group CFO.
- Managed cutover activities, end-user training, go-live, and post-implementation support.
- Implemented 3 SAP S/4HANA modules—FI, SD, and MM—coordinating with the SAP Core Team and end users throughout the implementation.

VIYELLATEX Group | November 2014 – June 2017
Executive, Corporate Group Finance
